Pediatric Advanced Life Support (PALS) Update Course

Friday, February 24, 2017 ~ 8:00 am—4:30 pm

Ocean Shores, Washington

The American Heart Assoc. PALS Update Course is an advanced, instructor-led course for healthcare professionals who direct or participate in the management of critically ill or injured infants and children. Providers will enhance and reinforce skills in the treatment of pediatric arrest and peri-arrest patients through active participation in a series of simulated pediatric emergencies and small group skills stations. Important concepts of a systematic approach to pediatric assessment, basic life support, PALS treatment algorithm, and effective resuscitation team dynamics will be learned in the course.

If your PALS provider status has lapsed you can still attend this PALS course. You will not be eligible for remediation should you not pass any of the stations.

Questions? Contact course instructor Cynde Rivers, RN, MN, CEN, MultiCare Mary Bridge Children’s Hospital at cynthia.rivers@multicare.
